COUNCIL OFFICES,
CLAYTON-LE-MOORS
1964

**To the Chairman and Members of the
URBAN DISTRICT COUNCIL OF CLAYTON-LE-MOORS**

MR. CHAIRMAN AND GENTLEMEN,

I have the honour to present my report on the health of the District for the year 1963.

During the year there has been nothing that calls for special comment. The general health of the district is very satisfactory.

Ten unfit houses were demolished.

I thank the Clerk of the Council and Mr. Bailey for unfailing co-operation at all times, and yourself Mr. Chairman and the Committee for your continual interest.

Your obedient servant,

R. C. WEBSTER

Medical Officer of Health.

GENERAL PROVISION OF HEALTH SERVICES IN THE AREA, 1963

Ambulance Facilities

These are provided by the Lancashire County Council.

Nursing

The Home Nursing Service is provided by the Lancashire County Council.

Domestic Help Service

The County Council provides this : the Home Helps are engaged on an hourly basis and are available for maternity cases and cases of illness.

Maternity and Child Welfare

This service is administered by the Lancashire County Council. Infant Welfare Clinics were continued weekly, Ante and Post-Natal Clinics are now held on alternate weeks. The help of the ladies on the voluntary committee at the Infant Welfare Clinic is again gratefully acknowledged.

Day Nursery

This service is administered by the Divisional Health Authority, Accrington. The nursery was opened on the 9th February, 1953, and is capable of providing all necessary facilities and accommodation for 50 children. The staff consists of 1 Matron and 14 Assistants and charges are made according to the financial circumstances of parents seeking admission for their children, the maximum being 9/- per day, per child, with a proviso that any second child, etc., is only charged at the rate of 4/- per day.

School Medical Inspection

The school medical service is provided by the County Council. Medical Inspection was carried out by the Medical Officers of the County Council.

The School Clinics continued as usual at Rishton comprising Minor Ailments, Orthopaedic, Ophthalmic and Dental Clinics.

Immunisation Clinics were held regularly at the Welfare Centre.

Hospitals

No Hospitals or Registered Nursing Homes existed within the Urban District.

Health Education

The services outlined above are available to all and are, generally speaking, well used. Efforts are made to secure a wider use of the Health Services by the personal recommendation of the Medical Officer, Health Visitors, School Teachers and others. Posters are exhibited at the Town Hall, Welfare Centre, Clinics, and in the Schools.

SANITARY CIRCUMSTANCES OF THE AREA

Water Supply

The Calder Water Board undertake this service and make the necessary tests of the quality of the water. The supply was constant and sufficient as every house is served, no extension of piped supplies has been required. The conversion, as time goes on, of waste water to fresh water closets together with the application of the Standard Grant Scheme will, however, increase the water needs of the district.

Drainage and Sewage

This service is undertaken by the Clayton-le-Moors and Great Harwood Joint Sewerage Board, and extends to all premises save a few isolated farms. Periodical testing and flushing was carried out.

Scavenging is carried out by the Health Department of the Local Authority.

Further details regarding Sanitary circumstances, Housing and Inspection and Supervision of Food, are contained in the report of the Public Health Inspector.

INFECTIOUS DISEASES

Three new cases of Tuberculosis were notified during the year and there were 3 deaths from this disease during the same period. The number of cases at present on the register is :—

PREVENTION OF DAMAGE BY PESTS ACT, 1949

The Council employs a part time Rodent Operator and all complaints are fully investigated. The rodent control methods used by the Authority are in accordance with those recommended by the Ministry of Agriculture, Fisheries and Food. Systematic inspection and disinfestation of surface properties for rats and mice were continued during the year, and the bi-annual treatment of the sewers and manholes has had a considerable effect in reducing infestations both in the sewers and surface properties, in addition, the refuse tip and river banks have been treated to control any possible infestations. During the year free treatment was again afforded to dwellings.

The following table gives a summary of the work done throughout the past year.
